Name Boards at the Headworks of Irrigation Schemes

Please find a type plan for a Name Board (annex 1) proposed to be erected at appropriate place in headworks of Irrigation schemes or at a prominent place at the access to scheme. When finished, the appearance of the board will be like the picture in annex 2 (with some changes that have been suggested in the type plan for hanging arrangements).

You are instructed to display the Project plan, schematic diagram and also the history of the scheme that would be of interest to the general public and to the beneficiaries. (A sample display text is also attached - pl see annex 3). A draft of the display text may be sent to DD(AM) for comments before printing.

Name Board can be digitally printed on a sticker, laminated and fix to a cladding sheet or Aluminum sheet. Heavy Aluminum bars can be used for the frame while L-angle steel rods be used for supporting the frame.

A tentative estimate is sent herewith prepared for 2011 rates (pl see annex 4). You may include this as an item in the O & M estimate in a large scheme or request for additional funds for medium or small schemes for which O & M estimate would not be sufficient to cover the expenses.
